EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Colleen McKiernan on 3/17/2004.

2. The application has been amended as follows:

Claims 21 and 22 have been canceled.

Claims 1-20 were canceled in a previous amendment submitted by applicant on 9/26/2003.

3. The following is an examiner's statement of reasons for allowance: In claim 23, applicant has claimed a method of treating a plurality of biological samples comprised of the following steps: placing the sample and solid support in a sample well within a container having an array of wells, loading the sample container onto a centrifuge rotor, dispensing a solution into each well of the plurality of wells either before or after placing the container in the centrifuge, spinning the centrifuge at a first speed, and then spinning the centrifuge at a second speed higher than the first speed to *force the sample from the bottom of the sample well up and out of the well and across a bridge. The bridge is functionally connected to a drain tube which is functionally connected to a*

collection well in a collection container. The Examiner did not find prior art that taught or suggested the use of such a bridge feature in centrifuging and collecting samples from a multiwell container. The Examiner considers the previously cited reference "Kedar" to be the closest prior art. Kedar teaches the transfer of liquid materials from a well using centrifugation, but does not teach the use of a bridge that is connected to a drain tube and collection container.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dwayne K Handy whose telephone number is (571)-272-1259. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on (571)-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
